APART 15, 1850.

The undersigned, having been appointed sole spent in the United States for the sais of Charles Frodsham's improved time-keepers, would respectfully call public attention to his extensive and valuable stock of compensated chronometer watches, made by charles Frodsham, and styled his "new series." In the watches of the new series, sit Frodsham has succeeded by a more perfect method of compensation, a more correct adjustment in isochronism, and an entirely new and peculiar construction of the train, by which more power is obtained without increase of size, in producing time-keepers of worderful and unrivalled accuracy. The great importance of the improved watches is a perfect regularity of time under every variety of climate motion, and position. So perfect are the adjustment that the most volcet carecties, such as horseback riding, jumping, &c., produces on them no sensible effect. They are, therefore, pocularly dasped to ratirond purposes.

The scientific French critic, Mons. Borsendorf, in his review of the great London Exhibition in 1851, styles the contribution of Mr. Chas. Frodsham as "bearing the stamp of peculiar merit, and as being the flower of the English school."

The British government has awarded Messys. Arnold and Chas-Frodsham the sum of £3,170 for the excellence of the principle of their time-keepers.

One of Mr. Frodsham's correspondents writes as follows:

I remain, sir, yours respectfully,

THOS. BARTLETT.

Bostos, Oct. 5, 1853.

Sir: I herewith give you an account of the remarkable performance of the watch I purchased of you made by Charies Frodsham, No. 7,014. Its total variation for seventeen months, by weekly observations, was but one minute and fifty-five seconds.

Yours respectfully,

To Mr. Simon Willard.

Boston, Sept. 3, 1853.

The compensated lever watch 1 purchased of you, made by Chas.
Frodsham, of Loadon, No. 7,300, has varied but thirty seconds
from mean time in six months, by actual daily comparison with your
regulator. Yours, &c., ALVIN ADAMS.
Mr. Sinon Williams.

Mr. Sixos Willard.

The undersigned is permitted to refer to the following gentlemen, who, among many others, have proved the excellence of Frodsham's watches as time-keepers:

The New York Musical Review and Choral Advocate Is the cheapest and best musical paper in the world. This journal (which has herestofore been published monthly) commences its fifth year in January next, and thenceforward it will be published every two weeks—on every other Thorsday—thereby giving more than twice as much matter without any increase in price. Each number contains sixteen quarto pages, four of which are new music, consisting of glees, hymn tunes, chants, anthems, dedication and holiday pieces, and, in short, every variety of music adapted to purposes of religious worship, to public occasions, and to the home circle; all of which will be of a practical character and such as can be sure by persons of ordinary musical attainments. In the editorial department of the Review are engaged (in addition to Mr. Cady, the former editor) gentlemen of the highest talent and ripest musical experience, among whom are Goorge F. Root, Wm. B. Bradbury, Thomas Hastings, and Lowell Mason; and its circle of correspondence, home amorphisms, is complete. The Review will also be a regular medium for the annoncement of new musical publications by all the leading publishing houses in the Union. Nor alone have practitioners and chemists furnished their testimonials. The public press, in almost every principal city and town, has holdly spoken in its favor in its editorial columns.

The New York Medical Gazette and Journal of Health, high authority, has repeatedly preclaimed its excetlence. In the July number of that journal, Dr. Reese, its accomplished editor, has publicly invited a discussion upon the subject of the use of alcoholte mix tires, medicinally, in its widely-circulating columns, and the views of the medical faculty in reference to my Schnapps in particular, giving an assurance that they should be pread before the public. Physicians, therefore, who have not already compiled with my request to ferward me their opinion as to its qualities, with oblige me by doing so through the editor of the Medical Gazette.

Were it necessary to do more than simply state the fact, which he who rune may read, this advertisement could be increased to an indefinite length by the publication of these authorities, all on file at the ware-rooms of the proprietor, in New York.

It is not only as a cemedial agent that the Schnappe are to be recommended, but as a gentle and perfectly barmless stimulant, which cannot be otherwise but hearthful and invigorating, and may be induced in with impunity by those of temperate habits, without the signiset fear of the banchi, mourraid, and horrible consequences of intozication—that vice which decolates the social hearth, cutalismistry upon counties thousands, dispour hospitals, almebroscap, and prisons, and even furnishes the gallows with its deadly frait.

In countries where price wince and liquors can be bad readily, and for a mere trifle, they are freely used by all classes, and drunkenness is hardly known—that vice to which the couplet of the immortal poet so aptly applies:

"A mongiter of such hideous mies,

That, to be hated, needs but to be seen."

Were Wolfe's Schiedam Aromatic Schnapps to be drank in pref-erence to all other distilled or fermented liquors, our temperance so-cieties would have less ardious labor to perform, and Horace Gree-ley, Gough, Barnum, and the other learned, eloquent, and devoted friends of total isstinaces, would rarely be called upon to ascend the rostrum, and cause thousands to listen with "an attent ear" to the great and starting truths they relate with such fervid and impas-sioned eloquence. There need be no Maine law to suppress intoxi-cation.

As long as men and women will persist in drinking drugged, adulterated, poisoned liquors, with which the country is flooded, drunk enness and all its concomitant evits must exist. We may well exclaim with Cassio—

"Ob, that a man will put an enemy into his mouth
"To steal away his brains."

"Ob, that a man will put an enemy into his mouth to stead away his brains """

In many districts of this country, particularly in the region of the great western and southern rivers, the character of their waters is such as to produce great disorganization of the system, and frequently chiefe discrete of an incurious character, the enumeration and specification of which would be character, the enumeration and specification of which would not enter the upperception to all those who reside in the districts specified which the schmappe are used in the districts specified which the schmappe are used to come known at the South and West, each the Schmappe are used in the choice of their indentiable and well-analyzed on the schmappe are used and once their medicalide and well-analyzed on the schmappe are used as the contact of the proprietor solicits the most rigid tests, and defice any person or resons to prove to the contact, or to produce an equally pure as teact of the jumper herry or Holland gis.

The public are again reminded that Wolfe's Aromatic Schiicelam Schnappe can only be procured in pist and quart bottles, stamped, labelled, and corked, and in colored wappers, with the signature of the proprietor affixed; and in colored wappers, with the signature of the proprietor affixed; and in colored wappers, with the signature of the proprietor affixed; and fall the retail price has invariably been fry centre for the pict and one dellar for the quart bottles, stamped, the districts of the proprietor and importer, and of all the principal druggiest throughout the UDCLPHO WOLFF.
